

REQUEST FOR PROPOSALS BUTTERFLY WING SCULPTURES

The Truro & Colchester Chamber of Commerce, along with our partners, is creating a series of interactive, human-scale butterfly wing sculptures to be placed in key main street neighbourhoods throughout Colchester County. These art installations will beautify our downtown and main street neighbourhoods and provide aesthetic, artistic and interactive benefits which will enhance the pedestrian experience for visitors, businesses and the community.

What We Need:

5 x Butterfly Wing Sculptures with moveable display bases, made to human scale that can be decorated by local artisans and can withstand the elements.

Sculptures should be made from metal, treated wood or another material that can be displayed outside. Bases must be sturdy and suitable for public interactions.

Human Scale

From ground to highest point: **7.5 feet tall**

Meet Point of top and bottom wings:
67" from ground

Width: Suitable to design.

Design does not have to match exact shape shown, this is for illustrative purposes.
